

Pricelist Chassis 2021 Huawei SmartAX

Huawei MA5600T Series

• **MA5608T Series:**

Chassis for roll-outs for Hotels, Residencies and Small projects, with the possibly giving service to up to **32 PON**, approx. **2.048 customers** per chassis.

FO-MA5608T-A1.1	2x MCUD control board with 4 GB Uplink ports + 1x 48V MPWC power supply board + 1x 8 PON C+ board with SFPs included. (With Redundancy)
FO-MA5608T-A2.1	2x MCUD control boards with 4x Uplink GB ports + 1x 48V MPWC power supply board + 1x 48V MPWC power supply board + 1x 16 PON C+ board with SFPs included. (With Redundancy)
FO-MA5608T-A3.1	2x MCUD control cards with 4x Uplink GB ports + 1x MPWD 220V power supply card + 1x MPWD 220V power supply card + 1x 8 PON C+ card with SFPs included. (With Redundancy)
FO-MA5608T-A4.1	2x MCUD control board with 4x Uplink GB ports + 1x 220V MPWD power supply board + 1x 16 PON C+ board with SFP included. (With Redundancy)
FO-MA5608T-A5	1x MCUD1 control board with 4x Uplink 10GB/GB ports + 1x MPWD 220V power supply board + 1x 8 PON C+ board with included SFPs. (Without Redundancy)
FO-MA5608T-A5.1	1x MCUD1 control card with 4x Uplink 10GB/GB ports + 1x MPWD 220V power supply card + 1x 16 PON C+ card with included SFPs. (Without Redundancy)

Discontinued equipment, with a one-year warranty.

Serie MA5800-X Huawei

• **Serie MA5800-X2:**

Redundant Chassis for roll outs in Hotels, Residencies, Small projects with the possibility of giving service to up to **32 PON**, approx. **2.048 customers** per chassis.

FO-MA5800-X2-A1.1	2x MPSA / MPSC Control Cards with 4x 10GB/GB Uplink ports, each + 1x 48V PISA Power Card + 1x 16 PON C+ Card with SFPs included.
FO-MA5800-X2-A2.2	2x MPSA / MPSC control boards with 4x Uplink 10GB/GB ports each + 1x PISB 220V power supply board + 1x PON C+ 16 board with SFPs included.

(Chassis with Redundancy)

• **Serie MA5800-X7:**

Redundant Chassis for FTTH operator roll outs, with the possibility of giving service to up to **112 PON**, approx. **7.168 customers** per chassis.

FO-MA5800-X7	2x MPLA / MPLB control boards with 4x Uplink 10GB/GB ports, each + 1x 48V PISA Power Supply Board + 1x 16 PON C+ board with included SFPs.
--------------	--

(Chassis with Redundancy)

• **Serie MA5800-X15:**

Chassis for huge FTTH operator roll outs with the possibility of giving service to up to **240 PON**, approx. **15.340 customers** per chassis.

FO-MA5800-X15	2x MPLA / MPLB Control Cards with 4x Uplink 10GB/GB ports, each + 1x 48V PISA Power Supply Card + 1x 16 PON C+ Card with SFPs included.
---------------	---

(Chassis with Redundancy)

Huawei OLT Accessories

FUENTEAPON30	30A Power Source (<u>Redundant</u>) input/output for batteries.
---------------------	--

FUENTEAPON50	50A Power Source.
---------------------	--------------------------

FUENTEAPON100	100A Power Source (<u>Redundant</u>).
----------------------	--

TPON8	GPFD 8 PON C+ Card with <u>SFP's</u> included.
--------------	---

TPON8C++	GPFD 8 PON C++ Card with <u>SFP's</u> included.
-----------------	--

TPON	GPFD 16 PON C+ Card with <u>SFP's</u> included.
-------------	--

TPONC++	GPFD 16 PON C++ Card with <u>SFP's</u> included.
----------------	---

TPON-MA5800	GPHF 16 PON C+ Card with <u>SFP's</u> included for the MA5800-X chassis.
--------------------	--

TPON-MA5800C++	GPHF 16 PON C++ Card with <u>SFP's</u> included for the MA5800-X chassis.
-----------------------	---

FO-X2CS	X2CS Card- 2x 10G Uplink ports, for MA5683T / MA5680T chassis.
----------------	--

FO-SFPHUAWEI	Huawei 10/100/1000 BaseT RJ45 Module, 100 mts.
---------------------	--

FO-SFP1G	Huawei 1,25G (SFP+) LCU Duplex 1310nm Monomodo, 10 Km.
-----------------	--

FO-SFP10G	Huawei 10 Gbps Optical Module (SFP+) LC Duplex 1310nm, Singlemode, 10 Km.
------------------	---

FO-CABLEOLT	OLTs power cable 1m for OLT MA5600 / MA5800 *(Please indicate the model before processing the order)
--------------------	---

Complementos OLTs Huawei XGS-PON (10Gbps Simetricos)

XGSPON-MA5800C+	CSHF PON/XGS-PON card with 16 SFPs Combo C+ included.
------------------------	---

* Allows simultaneous operation with ont GPON and XGS-PON on the same output line thanks to the SFP C+ Combo optics.
